## CONSENT AT WORK

**Workplace sexual harassment is a harmful pattern of behaviour that negatively impacts individual staff as well as larger workplace units and teams. This workshop will focus on such topics as:**

- Identifying and discussing the underlying issues that may lead to harmful workplace sexual harassment
- Developing a culture of 'Consent at Work' that encourages respect and understanding in the workplace
- Highlighting effective skills for bystander intervention
- Learning how to better support staff who have disclosed, or wish to disclose, experiences of workplace sexual harassment
- Navigating the local resource map of workplace sexual harassment support available for Manitobans
